

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	11 July 2026
Team ID	
Project Name	Electrical Vehicle Performance & Market Analysis
Maximum Marks	4 Marks

Functional Requirements:

FR No.	Functional Requirement	Sub Requirement
FR-1	Dashboard Visualization	Interactive Tableau dashboard with EV KPIs
FR-2	Top Speed Analysis	Analyze top speed by brand/model
FR-3	Range Analysis	Compare EV driving range
FR-4	Charging Station Analysis	Region-wise charging station analysis
FR-5	Price Analysis	Brand-wise EV price comparison
FR-6	Acceleration Analysis	Body-style acceleration analysis
FR-7	Interactive Filters	Brand, region, body style, price filters
FR-8	Tableau Story	Present insights using stories
FR-9	Data Cleaning	MySQL preprocessing and transformation
FR-10	Business Reporting	Support business decisions

Non-Functional Requirements:

NFR	Requirement	Description
NFR-1	Usability	Easy-to-use dashboard
NFR-2	Performance	Fast loading
NFR-3	Reliability	Accurate insights
NFR-4	Security	Protected processed data
NFR-5	Availability	Accessible anytime
NFR-6	Scalability	Supports future datasets
